Dear Prayer Supporters,

Besides the regular ministry of the church, we continue working to preserve unity, especially with the core group of the church. These are the people that have been with us for some time—some who are very involved in the ministry and some who are being discipled.

We have been confronted with some challenges, and we count on your prayers. Many people who had taken on responsibilities to serve the Lord have left the church. Pray for Dora and her daughter and also for Talita who are among them. Dora got involved with a boy and seems to be going through a lot of trials. Pray also for Ronaldo, a young single man who is away from church and the Lord. He has become involved with a young woman from another church.

Paula is a visitor who is going through many anxious times because her husband is not saved. I visited them and found that they are having problems in their relationships with each other and with their families. Please pray for this couple; pray for the salvation of Paula's husband.

Another who is having marital problems is Elisangela. She is suffering from migraine headaches because of her nerves.

Sandra and her daughter Andreasa continue to have big problems because Sandra's husband Cicero is addicted to alcohol. Each day seems to get worse for them.

We are investing our time to strengthen the family and give them the biblical framework for Christian marriage and the home by having home studies, church services and get-togethers for couples. Please pray that I will be given godly wisdom as we proceed.

We had to take a break from our ministry in the home of Carlos and Carmen because of Carlos' new job as a bus driver. They have asked that we wait until they can organize their time.

My wife Adriana was having very serious pain with her teeth. We praise the Lord that He has provided treatment for her at no cost. She has had one oral surgery and is waiting to have a second one. Thank you for praying. The Lord does care for us!

In all, we have seen the mercy of the Lord renewed every day; He always gives us energy and hope.

In Christ with thanksgiving,

Pastor Wagner da Silva
