Dear Prayer Partners,

I thank God for the opportunity He is giving me to share His word to the barangay officials. I opened a Bible study at Rod Rosete's home; he is one of the barangay councilors. I praise God for the positive response that Rod gave me when I asked him to host this study. I pray that I am able to reach more officials with the gospel through Rod and this study. Rod testified that he has neglected the most important part of his being—his spiritual being. Our initial study went well, and again, I pray that we will reach many with the word of God. I pray that God will give me strength and more Christian workers to help me in this ministry. Please pray for the guidance and leading of the Holy Spirit as I minister to these barangay officials.

We praise God for His provisions that enabled the church to stay in the existing home where we have our services. The owner, Eduardo Avena, had raised our rent, so we went on our knees in prayer before the Lord and He answered. We are also grateful that Eduardo and his family are now attending our services. Give thanks to Him!

We thank you also for continually praying for our ministry in this part of Laguna. The Lord has shown mercy to His people as we go through difficulties. Although many of our members are financially unable to support us, we are grateful that their faith in the Lord is intact and growing. Please pray for us as we struggle financially.

The cost of goods has increased because of the rise in gasoline prices, and we continue to experience a rice shortage. Indeed, there is nowhere to go, but to the Lord. We trust God to sustain us and provide for our needs in the midst of this crisis. May the Lord continue to bless us as we continue in this task of spreading His word to the unbelieving world. Glory to God!

In Christ,

Pastor Wilson Andres
