Dear Prayer Partners,

Our leadership training continues to be very exciting. The members of the group are opening up regarding their testimonies. One young lady began to cry, saying that she had once contemplated suicide because she had nothing good in her life. She said that the lessons she has learned in this training class are precious. She commented further, "I will never be the same again now that I have the Lord."

In our sessions, we study the text at a deeper level so that it cannot be easily forgotten. The truths that are shared are being retained. I think this is because the more time that is spent examining the text, the more it is ingrained in our minds and hearts. The people love studying the Bible through this inductive study method. Please continue to pray that God will give more wisdom to my wife and me. Pray that our leadership core will continue to grow and mature, assisting in the harvest of souls.

We distributed another set of school supplies to the less fortunate children of our ministry through "Alay Eskwela Project". We are grateful to God for providing us all that we need in order to accomplish this outreach. God has indeed poured out His blessings upon us. Through this ministry, many children have come to know and love Jesus Christ. Homes have been opened to us so that we can visit with the families and share the gospel.

We praise the Lord for the answered prayer of additional seating for the church services. Before we only had 12 chairs—those who came had to bring their own. Now we have a sofa that seats 12! A friend of mine delivered this to us recently. Thank God!

We are also very grateful for the opportunity to reach Doming and Miguel with the gospel. These two men, who have just retired, have been avoiding us for quite some time. Then one day they came by, thinking that we had already finished our Bible study. But we had not! So they sat side by side and listened attentively. I presented the gospel to the group, and praise God, they received Jesus Christ! The group rejoiced! It didn't take long though for Doming's faith to be tested. Later that evening, he had difficulty breathing. Panicked, he came to our house, so we took him to the hospital. Thankfully, there was nothing seriously wrong with him; he was told to rest. We went back to our homes knowing that our faith was stretched, and knowing that God will continue to increase Doming's faith. Pray that he will trust the Lord in all circumstances. Pray for Miguel as well, that they will both grow in the Lord.

With gratitude,

Pastor Ranilo Veloso
