serving in **SAN JOSE,**
OCCIDENTAL MINDORO

Dear Prayer Partners,

We greet you in the name of our Lord and Savior Jesus Christ.

Allow me to share our joy regarding my son Joel. He just graduated with a BS in Information Technology from Occidental Mindoro State College. After graduation, the school hired him as a part-time instructor at their satellite campus in Mamburao. The school requires him to take up to 18 education units so he enrolled in Divine Word College for summer classes. Joel wants to get a Master's Degree so that he can be a permanent instructor for the college. By God's will, it will be at AMA Computer School. Please pray for him.

Pray also for our other son Daniel. He is a graduate from the same college, but with a degree in criminology. He works as a security guard, but his desire is to become a policeman. He was not able to pass the licensure exam (he's taken it four times). Please pray the Lord will grant his request. Please pray with us.

I praise God so much because He has blessed me with gifts that can be used for the church and for His glory. Our church building project continues and we are able to save money because I am able to do the electrical work, masonry, carpentry and plumbing myself. Our next project is to complete the windows and doors. Please pray for God's continued financial provisions so that we can move forward.

We give praise to God for Dominga Balmes, who was saved in 2008. She is coming to our church and has been very active. She shares her testimonies each Sunday and if she has no money for the offering plate, she will give a kilo of rice instead. After the Good Friday service, she, along with two other believers, decided to follow the Lord in water baptism. Please pray for her.

We have a pioneering work in Sitio Kasuyan, which started last December. One of our contacts there, a Sitio leader, Mrs. Lita Anthony, is very hospitable and willing to serve. This month, she and the home Bible study group members will start to construct a simple church building made up of native materials, such as bamboo, kugon grass and wood. Neither I nor the mother church asked them to do this because it is so early in the process, but they are determined to be united and to have a worshipping congregation soon. Please pray that we will always look unto the will of God so that we will not dishonor Him or the church.
